Kuvaus

A recipe where unique ingredients are combined creating extraordinary flavours for an exceptional smell and tasting experience.

Botanical herb aromas at the start followed by a fresh flavour with soft bitters and a pleasant sparkling taste with lemon and herbs at the finish. Blind tasting has proved that the product quality is indistinguishable from a Gin Tonic containing an alcohol content.

A trendy 'botanical' look bottle appearance with easy maxi-pull closure for convenience use. An appealing design with a structured paper label for the most premium use and appearance combining all elements together, Sir. James brings authenticity according to the current market trend.
